

EDUARDO DIAZ

SENIOR MOBILE DEVELOPER, FULL STACK

eduardod8108@gmail.com

Rioverde, San Luis Potosí
79625

Mexican

PROFESSIONAL SUMMARY

Senior Mobile Developer with expertise in mobile and full stack development, proficient in Swift, Kotlin, React Native, and Flutter. Strong background in building feature-rich mobile and web applications with focus on performance, scalability, and user experience. Conscientious worker with solid work ethic, consistently delivering projects on time and with minimal errors. Seeking role of Senior Full Stack Mobile Developer, bringing advanced technical skills and methodical approach to application development.

EXPERIENCE

Goglia Nutrition - Senior Full Stack Mobile Developer

San Diego, CA • 01/2024 - 05/2025

- Developed two cross-platform healthcare mobile applications using **React Native**, with a focus on personalized nutrition and user health tracking.
- Implemented scalable **backend APIs** using **Python**, **Node.js**, and **Firebase Functions**, enabling real-time data handling and secure user authentication.
- Set up and maintained a **CI/CD pipeline using GitHub Actions** to streamline testing, deployment, and app versioning processes.
- Handled **mobile DevOps responsibilities**, including provisioning certificates, managing App Store and Google Play releases, and troubleshooting deployment issues across platforms.
- Collaborated closely with product owners, designers, and QA to ensure feature completeness, regulatory compliance, and timely delivery.
- Optimized software performance by identifying bottlenecks and implementing efficient algorithms and data structures.
- Implemented agile development practices across multiple projects.

Skills: React Native, JavaScript, TypeScript, Python, Node.js, Firebase, Cloud Firestore, Cloud Functions, Google Cloud Platform, AWS, GitHub Actions, CI/CD

Luxoft Mexico - Senior Software Engineer

Zapopan, Jalisco • 06/2021 - 12/2023

- Led mobile and web application development across four enterprise-level projects using **React Native**, **React.js**, **Next.js**, and **Node.js**, delivering performant, maintainable, and scalable applications.
- Developed robust front-end features and cross-platform mobile components with **TypeScript**, **JavaScript**, and modern state management libraries like **Redux**, **MobX**, and **MST**.

EDUCATION

Universidad Autónoma del Estado de México

Toluca, Mexico • 06/2014

Bachelor of Science (BS): Computer Science

SKILLS

- JavaScript
- Java
- Kotlin
- Swift
- Dart
- Python
- React Native
- Expo
- Flutter
- React.js
- Next.js
- Node.js
- API development
- Firebase
- Google Cloud Platform
- Amazon web services
- Bitrise
- Fastlane
- GitHub Action
- AI/ML
- JIRA
- Agile
- Software development lifecycle

- Built and integrated **GraphQL** and **RESTful APIs**, focusing on clean architecture, reusability, and secure data exchange across mobile and web platforms.
- Architected CI/CD pipelines using **Vercel**, **Bitrise**, **AppCenter**, and **Fastlane** to streamline development, testing, and deployment workflows for both Android and iOS platforms.
- Instrumented crash and performance monitoring using **Sentry** and **Firebase**, significantly improving release quality and stability.
- Maintained production-grade deployments and A/B testing configurations using **Firebase**, **AWS**, and **RevenueCat** to support growth and monetization strategies.
- Collaborated cross-functionally with design, QA, and backend teams to ensure pixel-perfect UI, optimal performance, and seamless user experiences.

Skills: React Native, React.js, JavaScript, TypeScript, RESTful APIs, CI/CD, Bitrise, AppCenter, Fastlane, Sentry, BugSnag, Firebase, AWS, Unit Testing, Jest, Detox, JSON, Redux, MST, Amplitude, RevenueCat

Luxoft Mexico - React Native Developer

Zapopan, Jalisco • 03/2019 - 06/2021

- Developed and maintained core functionality for multiple cross-platform mobile applications using **React Native**, supporting both iOS and Android ecosystems.
- Created clean, modular front-end architecture using **TypeScript**, **JavaScript**, **Redux**, and **MST**, improving codebase maintainability and onboarding efficiency.
- Integrated and maintained **RESTful APIs**, ensuring consistent data flow and efficient client-server communication.
- Implemented CI/CD pipelines with **Bitrise**, **AppCenter**, and **Fastlane** to automate build, test, and release processes.
- Conducted unit and end-to-end testing using **Jest** and **Detox**, helping improve code quality and reduce regression issues.
- Integrated third-party analytics, error tracking, and monetization tools including **Amplitude**, **BugSnag**, and **RevenueCat**.
- Played an active role in agile development processes, contributing to sprint planning, code reviews, and continuous improvement initiatives.

Skills: React Native, React.js, JavaScript, TypeScript, RESTful APIs, CI/CD, Bitrise, AppCenter, Fastlane, Sentry, BugSnag, Firebase, AWS, Unit Testing, Jest, Detox, JSON, Redux, MST, Amplitude, RevenueCat

AGILE Infoways - Full Stack Engineer

Coral Springs, FL • 04/2017 - 02/2019

- Developed and maintained full-stack web and mobile applications for a diverse portfolio of clients, spanning industries such as healthcare, education, and location-based services.
- Built user interfaces and mobile experiences using **React.js**, **React Native**, **Java**, and **Swift**, ensuring cross-platform functionality and a consistent user experience.
- Gained deep hands-on experience in **front-end and mobile development**, contributing to multiple real-world projects as part of a structured training and mentorship program.
- Designed and implemented application architecture and UI components for both iOS and Android platforms, using **Objective-C**, **Java**, and **Redux** for efficient state management.
- Developed and integrated **RESTful APIs** using **Node.js** and **Express**, and managed backend services with **MongoDB** and **MySQL** databases.
- Integrated mobile analytics and monitoring tools such as **AppSee**, **Mixpanel**, and **Firebase** to track user behavior and optimize

CERTIFICATIONS

- React JS Developer SME
- Android Apps Developer SME
- Android Security Essential SME

performance.

- Collaborated in technical workshops and peer programming sessions, shadowed senior developers, and actively contributed to code reviews and learning initiatives.

Skills: React Native, React.js, Swift, Objective-C, Java, JavaScript, Node.js, Express, RESTful APIs, AppSee, Firebase, Mixpanel, Redux, MongoDB, MySQL

FrontRunner Technologies - Mobile Developer

Aguascalientes • 12/2014 - 02/2017

- Developed feature-rich social networking mobile applications for **iOS** and **Android**, with functionality inspired by platforms like Facebook and LinkedIn.
- Built native applications using **Objective-C**, **Swift**, and **Java**, enabling users to create and share posts, like and comment, connect with other users, engage in private messaging, and configure push notification settings.
- Contributed to real-time communication and notification systems, leveraging **Firebase** and **GCP** services to manage messaging, authentication, and app configuration.
- Integrated RESTful API services to enable seamless data synchronization and user interactions across devices.
- Collaborated on the transition of some projects to **React Native** and **React.js**, contributing reusable components and optimizing cross-platform performance.
- Focused on responsive design, smooth UX, and offline support to ensure high-quality app performance on various mobile devices.
- Utilized **Node.js**, **JavaScript**, and **JSON** for backend integration and data formatting.

Skills: Objective-C, Swift, Java, Android, iOS, JavaScript, React Native, React.js, Firebase, GCP, Node.js, JSON, RESTful APIs
